mozyenterprise®

Mozy Data Shuttle Service

The MozyEnterprise advantage

Simple

Manage multi-user environments, schedule automatic backups, and monitor the health of your backups from a web-based console.

Secure

Mozy is SSAE 16 audited and ISO 27001 certified, using only the strictest security policies, military-grade encryption, and world-class data centers.

Affordable

MozyEnterprise integrates seamlessly into your existing infrastructure with no need for tapes, DVDs, or hardware, keeping IT management and costs at a minimum.

Built to manage loads of data

If you have a server with more than 100 GB of data, the initial upload of that data to the cloud can seem to crawl. That's why we developed the Mozy Data Shuttle – a new service that provides a faster way to get large amounts of data to Mozy's data centres.

Big Data, Faster Upload

So how does it work? It's simple:

1. You order a Data Shuttle device from Mozy.
2. We'll send it to you overnight.
3. You do the initial backup to the shuttle device.
4. Put it back in the box and send it to our data centre.

That's it! You've skipped the initial upload over the wire. Incremental backups can even occur before the shuttle arrives at Mozy, as long as the initial backup to the Data Shuttle is complete.

Safe and Secure

Mozy takes your data seriously. When you undertake initial backup, Mozy will encrypt your initial backup using either the Mozy default key or a personal key of your choice. MozyEnterprise will generate a second encryption key and encrypt your data a second time before transferring any data to the Data Shuttle. The second key is transmitted to a central repository via SSL and is destroyed after the data is successfully stored in our data centre. As always, your data is stored at rest in encrypted format.

Mozy Data Shuttle Pricing & Availability

The Mozy Data Shuttle service is based on the size of the seed per machine backed up. Mozy Data Shuttle is available to MozyPro and MozyEnterprise customers. For pricing, please contact a MozyEnterprise representative.
